About IPC

IPC — Association Connecting Electronics Industries (www.IPC.org) is a global industry association dedicated to the competitive excellence and financial success of its more than 4,400 member-company sites. IPC represents all facets of the industry, including design, printed circuit board manufacturing, electronics assembly and test.

As a member-driven organization and leading source for industry standards, training, market research and public policy advocacy, IPC supports programs to meet the needs of an estimated \$2 trillion global electronics industry.
